

Eyelet Bay Pole

also works with curtain rings

The Bay Window Solution for Eyelets and Rings...

The Neo Bay window solution has been designed to work at its best with eyelet curtains, but also works with rings. With a choice of 28mm & 35mm diameters in all four Neo colours of Stainless Steel Effect, Chrome Effect, Spun Brass Effect and Black Nickel Effect, this is the perfect bay pole to complement and enhance your interior.

Bay Pole Brackets

Neo Bay Pole brackets have been engineered to the high standards of the Neo range. Being solid diecast they have maximum strength and weight capacity.

This focus on attention to detail ensures your bay pole adds to the beauty of your room and will stand the test of time.

Centre Bracket

To give a stunning finished look, the centre bracket features a two-piece magnetic cover plate which simply slides into place.

End Bracket

The end brackets are the hidden secret to the strength of this bay pole solution, being totally hidden by the curtains once installed.

Corner Joint

The corner joint is supplied as a straight piece which can easily be bent by hand to the angle required for your bay window.

Ordering your Neo Bay Pole

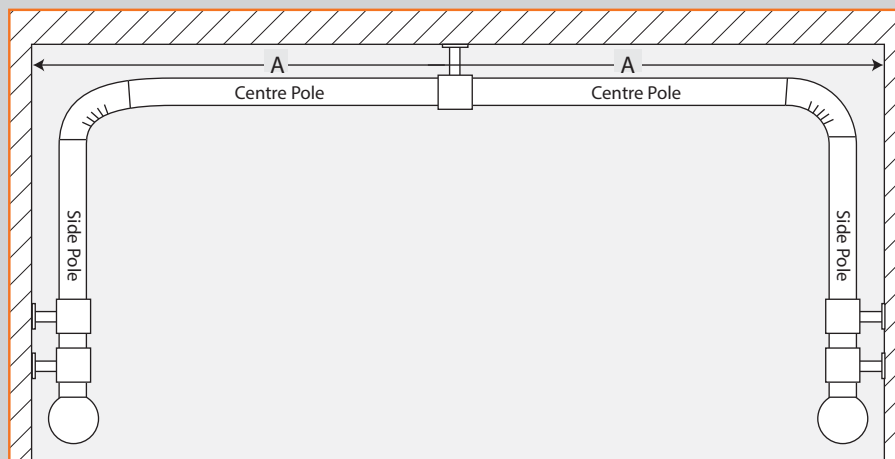

It's easy to choose the right combination of components to suit your bay window. You can order in a few easy steps to create the perfect bay pole for your window.

Choose your...

- **Pole** colour, diameter & lengths needed (for maximum strength the centre pole should be in one piece rather than joined).
- **Heading type**; using an **eyelet curtain** gives the best performance, however the bay pole also works with **curtain rings**
- **Bracket & corner joint combination** to suit the weight of your curtains (Corner Joints are supplied in straight pieces and can be bent by hand to your desired angle of up to 90 degrees).
- **Finials** from any of the Neo Collections to complete your look.

Choosing your pole

The centre pole of your bay needs to be one continuous length of pole to ensure the system performs at its best.

neo BAY POLE

Pole Only

1 pack of 1		28mm	35mm
	Stainless Steel Effect	2130R/Size	2219R/Size
	Chrome Effect	2166R/Size	2538R/Size
	Spun Brass Effect	2136R/Size	2511R/Size
	Black Nickel Effect	2186R/Size	2555R/Size

Pole Lengths (cm) supplied in one piece

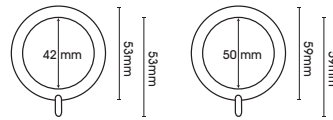

120	150	180	240	300	500*
-----	-----	-----	-----	-----	------

*500 in Stainless Steel Effect only.

Eyelet Curtains

We recommend using Hallis eyelets for your bay pole system to perform at its best. For 28mm poles we recommend 40mm eyelets and for 35mm we recommend using 50mm eyelets.

We do not recommend the use of eyelet liners.

Rings

1 pack of 6		28mm	35mm
	Stainless Steel Effect	1608R	2196R
	Chrome Effect	2157R	2521R
	Spun Brass Effect	1609R	2504R
	Black Nickel Effect	2177R	2548R

We recommend using 10 rings per metre.

You can remove the nylon liners from your rings to improve the running of your bay pole system, however this will increase the noise of the system.

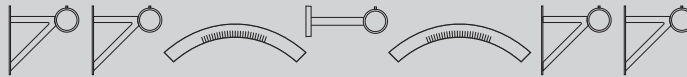

Choosing your brackets

For the smoothest performance of your bay pole, we recommend the use of two end brackets at each end combined with a centre bracket.

Fitting Heights: We have tested and recommend a maximum fitting height of 286cm for 135° bends, and a maximum fitting height of 230cm for 90° bends.

Recommended

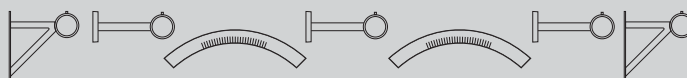

Combination 1

	Maximum curtain weight (pair)			Maximum curtain weight (pair)	
	28mm	35mm		28mm	35mm
90°			135°		
Eyelets	16kgs	24kgs	Eyelets	16kgs	30kgs
Lined Rings	10kgs	13kgs	Lined Rings	12kgs	22kgs

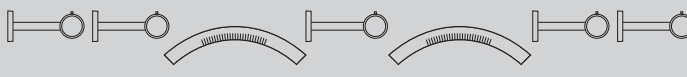

We recognise that there are times where fitting space may be limited and a different combination of brackets may be necessary, therefore we have tested a range of other bracket combinations to help you choose the best system for your window.

Combination 2

	Maximum curtain weight (pair)			Maximum curtain weight (pair)	
	28mm	35mm		28mm	35mm
90°			135°		
Eyelets	10kgs	12kgs	Eyelets	10kgs	12kgs
Lined Rings	8kgs	10kgs	Lined Rings	8kgs	10kgs

Combination 3

	Maximum curtain weight (pair)			Maximum curtain weight (pair)	
	28mm	35mm		28mm	35mm
90°			135°		
Eyelets	10kgs	12kgs	Eyelets	10kgs	12kgs
Lined Rings	8kgs	10kgs	Lined Rings	8kgs	10kgs

Combination 4

	Maximum curtain weight (pair)			Maximum curtain weight (pair)	
	28mm	35mm		28mm	35mm
90°			135°		
Eyelets	8kgs	10kgs	Eyelets	8kgs	10kgs
Lined Rings	8kgs	10kgs	Lined Rings	8kgs	10kgs

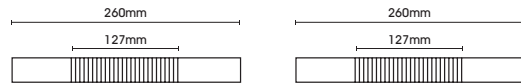

End Bracket

Single	28mm	35mm
Stainless Steel Effect	NE28SSAC18	NE35SSAC18
